SUMMARY

UI/UX Designer with 5+ years of experience designing responsive websites, web platforms, SaaS products, fintech experiences, and mobile flows for agency, product, and freelance teams across Egypt and Saudi Arabia. Contributed to 60+ client and product design projects spanning logistics, e-commerce, real estate, F&B, fintech, and Web3. Skilled in end-to-end UX, design systems, prototyping, and developer handoff, with practical experience using AI to accelerate visual exploration, wireframing, UX-ready content, and design ideation.

WORK EXPERIENCE

UI/UX Designer | Alex Web - Egypt (Hybrid)

Oct 2025 - Present

- Contributed to 40+ client web and digital product projects across two Alex Web engagements, spanning shipping and logistics, e-commerce, utilities, industrial services, and F&B.
- Facilitated discovery workshops and client meetings to translate business requirements into validated product direction, user flows, and responsive experiences.
- Created interactive pre-sales prototypes and scalable UI systems, then led developer handoff using Figma Auto Layout, reusable components, and clear design specifications.

Freelance UI/UX Designer | Remote

Jan 2022 - Present

- Delivered end-to-end UI/UX design for 16+ client projects across fintech, SaaS, nonprofit and institutional websites, and marketing landing pages.
- Managed the full project lifecycle independently - from discovery, research, user flows, and wireframing to prototyping, final Figma handoff, and client approval.
- Designed for clients across Egypt and Saudi Arabia while managing scope, stakeholder communication, and delivery deadlines.

UI/UX Designer | Nuqtah - Saudi Arabia (Remote)

Jun 2023 - Jan 2025

- Designed the marketing website, admin dashboard, wallet/mobile screens, and NFT marketplace module for a Saudi Web3 customer-engagement platform in light and dark modes.
- Built a scalable Figma design system covering typography, colors, components, cards, icons, and dashboard patterns to standardize the product experience.
- Extended the visual system into reusable LinkedIn, Twitter, and Instagram assets supporting Nuqtah's brand and marketing presence.

UI/UX Designer | Alex Web - Egypt (Onsite)

Nov 2022 - Jun 2023

- Created responsive UI designs for web and mobile client projects across shipping and logistics, e-commerce, and F&B.
- Developed rapid wireframes and interactive prototypes, then collaborated with developers through Figma inspection, component guidance, and detailed design specifications.

UI/UX Designer Intern | Gmind - Egypt

May 2022 - Aug 2022

- Supported senior designers with wireframes and UI mockups while gaining agency experience in Figma, Adobe XD, and professional web and mobile design workflows.

SELECTED PROJECTS

Spaces Contract - FF&E Solutions Platform

Saudi Arabia | spacescontract.com

Designed the website for a Saudi hospitality contractor specializing in FF&E solutions - covering service pages, factory showcase, and project portfolio. Focused on communicating premium brand positioning and driving lead generation through a clean, professional UI.

WASA - Web3 Alliance of Saudi Arabia Landing Page

Saudi Arabia

Designed a conversion-focused landing page for a Saudi Web3 organization, establishing a modern and professional visual identity aligned with the brand's positioning in the blockchain ecosystem.

Ship & C.R.E.W - Maritime Logistics Website

Egypt | ship-crew.com

Designed the corporate website for an Egyptian maritime logistics company specializing in port operations, container services, transportation, and value-added shipping services. Organized company information, service content, operational statistics, news, careers, branch details, and enquiry journeys into a clear responsive experience.

Mabany Edris - Real Estate Developer Website

Egypt | mabanyedris.com

Designed the corporate website for an Egyptian real estate developer, covering company profile, services, project portfolio, events, careers, and bilingual navigation. Focused on presenting the developer's projects clearly, reinforcing brand credibility, and supporting customer enquiries.
